GRAIN POOLING PLAN OUTLINED

Growers to Report Amount
of Grain for Bunch to
Headquarters.

(By the Associated Press.)
OKLAHOMA CITY, July 14.—Regulations for handling pooled grain for members of the U. S. Grain Growers association were adopted by directors of the corporation in session in Chicago last week, according to C. H. Hyde of Alva, member of the pooling committee. Procedure for handling grain by direct sales through farmers' elevators was not changed.
It has been agreed that no cash advances will be made to growers until after the grain has been delivered to a country elevator and that advance payments will depend upon the grade and variety. Mr. Hyde said, for instance, he explained, if conditions warrant an advance of 50 cents a bushel on No. 1 wheat, and No. 2 wheat is worth 3 cents less than No. 1, growers of No. 2 wheat will receive an advance of 47 cents. After the initial advance, all payments will be the same until the pool is sold and final payment made.
Freight differentials will be computed to the basic zone market to be designated by the sales committee. The pooling committee has ruled that farmers will be allowed one cent a bushel a month for grain held on the farm after it is threshed. This regulation is subject to change.
Report On Pool
Growers will be required to report to the pooling department at the national headquarters the amount of grain they will pool as quickly as crop conditions will warrant. An allowance to farmers who elect to pool for holding grain on the farm will be determined by the U. S. Grain Growers association, the pooling committee notifies the grower that is ready to handle such crop.
These regulations in no way concern grain that producers elect to sell direct to affiliated local farmers' elevators or on consignment.
Solicitors who are to sell the associations plan in Oklahoma or Texas met here July 11, at which time twenty men were chosen for the work. Ten will be sent to Texas and an additional reserve named. All of these men will cooperate with agents from the national headquarters.

30,000 of British Army Horses to be Killed Is Advice

(By the Associated Press.)
LONDON, July 14.—Horse lovers throughout the country have been shocked by Colonial Secretary Winston Churchill's announcement in the House of Commons that 30,000 army horses in Mesopotamia are to be killed because it is too expensive to bring them home.
It was explained that they are mainly heavy draft horses for which there is no local use and that they had to be fed on imported fodder. The nearest possible markets are India or Egypt, but the difficulties and cost of transportation thence are said to be prohibitive.
Shipping men say it costs £40 to £50 to bring a horse from the East to England, not counting horsemen's wages.
The war office view is that it is better for the horses to be killed humanely and scientifically than to be left in the hands of natives who would not care for them properly, and no one would suggest turning them adrift in the desert.

FRENCH OBSERVE BASTILLE DAY IN LONG FESTIVITY

(By the Associated Press.)
PARIS, July 14.—France today celebrated Bastille Day, the anniversary of the fall of the ancient prison, which was the symbol of the oppression which brought about the French Revolution. Observance of the holiday was begun last night when crowds gathered in the streets of the city and danced for many hours. In addition, there were great torchlight parades along the boulevards.
In connection with the observance it was recalled that three years ago tomorrow morning the Germans launched their futile attack to break the allig line and reach Paris.

INDIAN PAYMENT TO START AT MUSKOGEE

(By the Associated Press.)
MUSKOGEE, July 14.—Distribution of \$1,350,000 by the government to members of the Choctaw and Chickasaw Indian tribes will commence August 15, it was announced at the federal Indian office here today.
The 20,700 Choctaws will receive \$60 each and the 6,300 Chickasaws a like sum. The payment will be exclusive of freedmen.

ADA GUARD BATTERY TO BE SWORN IN BY INSPECTING STAFF MONDAY

Local Unit May Have Maximum of 75 Men, Telegram from Barrett Says; Cooks and Horse-shoers Are Needed to Complete Organization of Outfit.

BULLETIN
Adjutant General Charles F. Barrett and Major Earl W. Whitney, Wewoka, both of the Oklahoma National Guard, together with a federal inspecting officer, will arrive in Ada at 11:18 Monday morning and will muster in Battery "F" of the National Guard here at 8 o'clock Monday night, according to a wire this afternoon from Oklahoma City.
Mustered ceremonies will be held at the city hall and will not be of a formal military nature, it is understood.
"Your state and federal inspection fixed for Monday, July 18. Have all present if possible."
With this announcement from Charles F. Barrett, adjutant general of the Oklahoma National Guard, officers organizing Battery "F" unit here got their official sanction of enlistment work that has been going forward here with renewed vigor for the last two weeks.
Probably two officers, one to represent the state guard and another to represent the government, will be here Monday. Whether it will be Monday afternoon or Monday night, local officers were unable to say this afternoon. The telegram announcing the date of inspection and mustering in was received by Lieut. Robert Kerr, head of the local unit.
Sixty-five men, far over the minimum quota required for the formation of a guard battery here, had been examined and enlisted last night preparatory to being mustered in. Only 51 are required but officers passed this mark in recruiting several days ago. As many as 75 men may be signed up for duty in the Ada battery, another telegram from the adjutant general said. An attempt will be made to enlist this number so the local unit will have maximum strength, Kerr said.
Five special service men, three as horse-shoers and horse handlers and two as cooks, the first three to be put on permanent duty at salaries ranging from \$70 to \$90 a month, are now badly needed as the battery rounds into shape. The government will furnish practically everything for the horse handlers, and cooks are needed for encampment service this summer.
Camp May Start Soon.
Since definite assurance has been furnished that the Ada battery will be mustered in next Monday, plans are being formulated by Lieut. Robert Kerr, who is slated for the command of the battery, to start the annual summer encampment at Fort Sill by August 1. "I see no reason why this cannot be done," Kerr said today. Uniforms and other equipment will be issued to the battery almost immediately after it is mustered in, he explained, and its organization easily can be made good enough by that time.
The regular summer encampment will last 15 days. Other guard units of the state have made their camp schedules and many have held their encampments. In addition to this service, for which men will get full pay, members of the local unit will drill 60 nights in the year, on full salary. Encampment and local drill training will be that given in the regular army, according to Lieut. Robert Kerr. Equipment to be brought to Ada for use of the battery includes complete uniforms for all men, 30 to 40 horses with harness, feed for them to be bought here, four guns and four caissons, and two army Packard trucks. About 24 sets of government harness worth \$350 a set will be sent here. Guns will be worth about \$7500 each, caissons \$2500 each, and the trucks \$10,000 each, Kerr estimates.
Headquarters Selected.
All equipment of the guard will be kept at the fair grounds park temporarily. Later it will be necessary to start a movement for an armory to protect the guard materials, officers said.
All men who have signed up for duty in the guard must keep in close touch with Lieut. Robert Kerr or Lieut. Herbert Felix, who have offices in the Shaw building, for more definite word as to the hour when the guard unit will be mustered in, Kerr said.

AUGUSTUS TAKEN IN SECOND CASE

New Developments May
Be Pending in Auto
Cases.

Complications in missing automobile cases here deepened somewhat yesterday when Eugene Augustus, proprietor of the Sudden Service garage, was arrested and placed in the county jail without bond. This is the second time within the last week that Augustus has been arrested in this connection. Although Sheriff Bob Duncan and the county attorney's office had not filed new charges against Augustus this morning, they intimated that this would be done as soon as the collection of information was complete.
In the meantime, officers are redoubling their vigilance to detect some clue that will lead to the arrest of those who were implicated in the two recent automobile robberies here. Augustus and his mechanic, John Goodwin, were arrested Saturday and charged with grand larceny of a Ford touring car on July 4 from A. O. Sutton of Maxwell. The car, parts of which were said to have been found scattered through Augustus' garage in Ada, was taken from Sulphur.
The two men were allowed to make bond for \$1500 before Justice of the Peace H. J. Brown on the charge and July 19 set for their hearings.
County officers did not say what new developments led up to the second arrest of Augustus. These are expected to be set forth in charges filed by the county attorney's office late today or tomorrow.
**MRS. STILLMAN QUIET
OVER VICTORY OF DAY**
CHICAGO, July 14.—Mrs. Annie U. Stillman, visiting at the Herald McCormick estate in Lake Forest, today refrained from comment over her victory in New York yesterday over her husband, James A. Stillman, who admitted misconduct with Mrs. Florence Leeds and asked that further evidence of his activities be excluded from the trial.
"I am very glad to receive the news," was all she had to say.

Heat Is Broken By Rainfall in Three States of Valley

(By the Associated Press.)
KANSAS CITY, Mo., July 14.—Rainfall which began early today brought relief from the heat to the greater part of Missouri, Kansas and lower Nebraska, according to reports received at the local weather bureau here. The rain went northward as far as Omaha where an inch fell and westward through Kansas to the Colorado line. The rain did not extend south to any appreciable extent, weather bureau officials said and Oklahoma, Arkansas and Texas continue to have seasonably high temperature.

U. S. NOW RIDING IN GOOD FORTUNE

Manufacturers' Journal
Says Nation Is Making
Big Strides.

(By the Associated Press.)
CHICAGO, July 14.—In no period in the history of the United States has greater progress been made than during the first half of 1921, said the manufacturers' journal, in the issue of today.
"We continue to talk about re-adjustment when in a matter of fact we have already entered upon a new economic and business era containing the elements of unprecedented national prosperity."
"Many industries have already adjusted affairs to the new condition of things. Enormous losses have been taken without involving any particular line in insolvency."
"New prices have been established which will create a steady demand as soon as the public resumes buying, which was not stopped by a lack of money but by injudicious propaganda."

LIVESTOCK RATES ARE HELD TO BE NOT FAIR

(By the Associated Press.)
WASHINGTON, July 14.—Rates on livestock were held unreasonable from an economic standpoint and the interstate commerce commission recommended that the carriers make substantial reductions for the benefit of business in general, in a report made today by examiner Disque. The case, which was brought by livestock shippers in the western states, and in which various state commissions are involved, will be heard tomorrow by the commission.
WASHINGTON, July 14.—Rates on certain commodities are stifling industry and should be reduced, the examiner said, adding, however, that "a reduction in the rates of traffic in general seems unwarranted at this time."
The report said that all rates on livestock are not excessive when judged from a strictly transportation standpoint, but they "are unreasonable from an economic standpoint."
The livestock industry, the report said, would be materially helped by a reduction in rates because the cost of getting livestock to market is a substantial item.

BOLD BAD RIDER SHOOTS UP TOWN AND FLIES AWAY

Peace loving citizens of Ada were rudely awakened from the joyful depths of slumber late last night when a would-be "tough" man came to town and proceeded to shoot things up a bit, hitting mostly air. Officers who chased the fellow who craved excitement said that he was in a Dodge car and made a good job of visiting most of the town, shooting an automatic as he went. It could not be learned whether he had any companions with him.
No one seemed to remember the direction he entered town but several volunteered to tell the direction he left. After firing several times in the residence district in the southwest corner of the city, he drove down the main streets of the business section toward the Normal, and south on the Byrd's Mill road, continuing to shoot until he was out of hearing. Officers made an effort to catch the "bad man" but had little luck.

Seniors Score Hit Wednesday in Last Play of the Year

A live, peppy two act comedy-drama was presented by members of the senior class in the Normal auditorium last night which made a hit with what was said to be one of the largest audiences ever gathered for this kind of entertainment here. "When Mr. Brown Comes Down" was the title of the play. Each character played a good role and all proved themselves to be good amateur actors.
The Boys Glee Club rendered two numbers between acts which were enjoyed by the audience. Mistakes, romance and comedy were all displayed in the plot of the play and held the attention of the audience well. This will be the last school play to be given by any organization at the normal this summer.
Kidnapped Boy Returned
(By the Associated Press.)
GLOBE, Arizona, July 14.—Orval McKinstry, missing Lakin, Kansas, boy was brought to Globe last night after officers had effected his rescue from his kidnappers at Solomonville, near here.

OUTLOOK FOR PERMANENT PEACE IN IRELAND IS NOW BEST IN HISTORY

De Valera Says Important Step Now Is "Getting
Down to Rock Bottom"; England Must Get
Irish Needs Openly, Republican Leader
Declares in Statement Today.

(By the Associated Press.)
LONDON, July 14.—Eamonn de Valera, Irish republican leader, arrived at No. 10, Downing street at 4:30 this afternoon for a conference with Premier Lloyd-George, arranged for that hour, at which efforts will be made to find a basis for Irish peace settlement.
(By the Associated Press.)
LONDON, July 14.—Outlook for lasting peace in Ireland is brighter than it has ever been in history, declared Eamonn de Valera, the Irish republican leader, as he was about to enter into conference today with Premier Lloyd-George in an attempt to find a basis for an adjustment of the Irish problem.
Asked what he considered was the prospect of settlement being brought about by the conference Mr. De Valera answered: "The outlook is brighter than it ever was before in history."
"I am sure," he added, "that the condition in England and Ireland is right for peace. The only thing that is necessary now is for us to get down to rock bottom."
It was the first time Mr. De Valera had spoken for the public since his arrival in London Tuesday evening.
"This is simply a private conference with Premier Lloyd-George instead of a long range bombardment to see what can be done at close quarters," said the republican leader, who was in a bright and cheerful mood in talking with the correspondents.
"I have been told," he said, "that you have been rather disappointed in my not talking more freely with you but I am sure you quite understand the difficulties of the moment. I have come to feel you that it is not that I do not wish to say a number of things to the people of Great Britain, but that the moment is not opportune for it."
"You must know Irish need," "As far as I can see from the press here, which I have studied very carefully, there is no country in the world which needs more to be told the needs and aspirations of the Irish people and the right and logic of their case than your own people."
"I should be glad indeed to put the case before your people but as I am putting it before the representatives of your nation, I think it unwise to put it before the public."
Asked whether he would insist on the discussion in London being fully published, Mr. De Valera employed President Wilson's phrase, declaring that he personally was in favor of "open covenant, openly arrived at."
It was announced from De Valera's headquarters that this afternoon's conference would take the form of a personal interview between the British prime minister and Mr. De Valera, no one else being present.
Cork Riot Reported
(By the Associated Press.)
BELFAST, July 14.—Rioting broke out again in the Cork street area this morning. A bomb was thrown and damaged a grocery store, which was also looted, and another house set afire. A number of people were slightly injured by snipers.
Several windows were broken. Police managed to restore order without being compelled to use firearms.
**LEADERS MEET TODAY
IN LONG DISCUSSION**
(By the Associated Press.)
LONDON, July 14.—Eamonn de Valera and Premier Lloyd George conferred more than two and a half hours today over the question of Irish settlement. The republican leader arrived at the Premier's official residence at 4:30 p. m. and left at 7:10. At the conclusion of the conference Arthur O'Brien, president of the Gaelic League in London, stated that it terminated "amicably."
As has been agreed upon a communiqué regarding the conference will be issued later.

OIL TARIFF BILL IS UNDER ATTACK

Republican Opens Fight
Saying Duty Would Aid
Monopoly.

(By the Associated Press.)
WASHINGTON, July 14.—The first public expression of dissatisfaction among the republican members with the proposed tariff on oil came today from Representative Treadway, of Massachusetts, member of the ways and means committee, who told the house that the duty would aid only the "monopoly which markets the product."
He estimated that rates of 35c a barrel on crude and 25c a barrel on fuel oil would mean at least a gallon expense in the cost of oil to consumers.
To raise the tariff on oil importation, he said, would be a blow at our policy of conservation of natural resources.
**Ada Drops Point in
Sunday School Race
for Big Attendance**
Word was received from the First Baptist church of Durant today giving the Sunday school enrollment for last Sunday. The First Baptist church of this city still leads in the total enrollment but fell behind in the attendance of the business men's Bible class. The figures are as follows: Durant, total attendance 514, Business Men's Class 135; Ada total enrollment 532, Business Men's class 127.
"We must put forth every effort to hold our lead against Durant," Rev. C. C. Morris stated when announcing the report. "We have made too good a start to lose out now and by all co-operating we will be able to keep ahead. Everybody make an effort to increase the attendance next Sunday."

Ada Drops Point in Sunday School Race for Big Attendance

Word was received from the First Baptist church of Durant today giving the Sunday school enrollment for last Sunday. The First Baptist church of this city still leads in the total enrollment but fell behind in the attendance of the business men's Bible class. The figures are as follows: Durant, total attendance 514, Business Men's Class 135; Ada total enrollment 532, Business Men's class 127.
"We must put forth every effort to hold our lead against Durant," Rev. C. C. Morris stated when announcing the report. "We have made too good a start to lose out now and by all co-operating we will be able to keep ahead. Everybody make an effort to increase the attendance next Sunday."

OKLAHOMA WEATHER

Tonight and Friday probably fair, cooler in the northwest portion Friday.

BRIBERY CHARGE FILED ON JUDGE

Sapulpa Jurist Alleged to
Have Sold Million
Dollar Case.

(By the Associated Press.)
SAPULPA, July 14.—District Judge Lucien B. Wright was arrested last night and released on a \$10,000 bond following information filed before Justice Philiz, charged with accepting a bribe for deciding the \$1,000,000 "Tommy Atkins" case recently. The preliminary is set for July 27.
Witnesses who appeared before Attorney General Freeling before the complaint was filed declared that Judge Wright had already received \$10,000 for deciding the case against the Charles Page interests and in favor of L. O. Lytle and others of Sapulpa and was to receive \$90,000 more, according to Attorney General Freeling, who, with County Attorney McIlhenny of Creek county, filed the charges.
The "Tommy Atkins" case is one of the most famous civil suits ever decided in Oklahoma, involving as it does the ownership of oil leases worth \$2,000,000.
Witnesses endorsed information against Mrs. R. Rowe; Virginia Gorman; Mrs. Burgeon, state health inspector; Wm. H. Dill, Sapulpa; Charles McClood, Oklahoma City; W. S. McGray, Tulsa; Charles Tate, Sand Springs; Wm. Jenkins, Sapulpa, former territorial governor of Oklahoma, and a man whose name is left blank but whose residence is given as Hot Springs, Ark.
Following his arrest last night Judge Wright said he was not guilty but refused to make further statements at that time.
"In view of the evidence placed before me," said Attorney General Freeling, "and the persistent rumors against Judge Wright in connection with the decision of the case, I felt it only the part of justice for him as well as others concerned to file the charges and give him an opportunity to establish the facts in a court of record."
The information did not state who was the alleged briber. It was reported here this morning that County Attorney McIlhenny has declared that he will file charges against the parties alleged to be implicated.

Justice Had a Good Hunch But Audience Feared For Safety

Full many a word, spoken in jest, may fall on interested ears and have a sound of seriousness.
And a man who has had a new car lifted from his garage will grab at a straw for a clue. These two things were proved at the court house this morning by Justice of the Peace J. H. Fisher who declares he hit the first hot trail to a hunch on what became of the touring car stolen from County Sheriff Bob Duncan before it had been running law-enforcement missions two weeks.
"Sheriff, I have a hunch that the man who looked your car had an eye for business. He certainly used his head in grabbing one that had a full tank of gas," the Justice said with a laugh in his eye.
"How did you know my car was tanked with gas?" the sheriff asked, eyeing the justice suspiciously for a twinkling.
"Oh, that's easy," Judge Fisher answered. "A thief always goes to an officer's barn for a good horse or a good car. And a sheriff always has his flivver tanked up ready for action. Easy, I say, easy," the Justice chuckled.
"But listen, Judge, I once heard of a fellow who got shot for asking a neighbor in a joke why he set a house afire," some one piped up from a group of listeners.
Then the justice went to cover, declaring he had no more hunches.

\$1,500,000 Lost in Tulsa Fires Hamel Says After Visits

OKLAHOMA CITY, July 14.—Fire loss resulting from the Tulsa riot, in an estimate made July 1, was placed at \$1,500,000 and loss of life by fire, as one, by John T. Hamel, assistant fire marshal in a report made to John Connolly, state fire marshal. Mr. Hamel returned from Tulsa today and reported the facts orally before starting work on a written one. He was delegated by Mr. Connolly to make a complete investigation of the fire.
**SHAW'S STORE OBSERVES
ITS 19TH ANNIVERSARY**
Shaw's Department Store is making preparations for their 19th anniversary this month by putting on their annual two weeks anniversary sale. S. M. Shaw, proprietor of the store, has been in charge since it was founded in 1903 and it is due to his efforts that it has grown to be one of the leading department stores in the city and this part of the state.
Many bargains are being offered in the sale which starts Friday and will continue to the first of August.

Sir James Craig says attending the conference in London is distasteful to him. Lloyd George probably feels the same way about it.

TARIFF OUT OF POLITICS

The tariff should be taken out of politics and made a part of our government just as the department of agriculture is a part. It is no longer a strictly party matter and should not be a party matter.

The time once was when the average democrat looked upon protective tariff in about the same manner as he looked upon small pox or yellow fever. It was a thing to be avoided in its entirety. Such is not the case now. A few Republicans are opposing the Fordney Tariff bill now before congress. Democrats from Louisiana are supporting it. A few years ago the democrats of one of the rock-bound democratic southern states sent a man to the senate because he promised to have the industries of his state protected as well as those of other states. His opponent said he would have nothing to do with a tariff in any way.

The fact, however, that the tariff is not a party measure is not the reason for taking it from the realms of politics. The main reason is that it is an economic problem, simply one to be worked out to give whatever protection is needed to the struggling American industries, keeping ever in mind the need of this country in case of war and particularly keeping in mind the consumer of the products. The tariff commission or secretary or whatever the man or men who would have the regulation of tariff duties in hand should work out the schedules for the benefit of agriculture as well as for the benefits of manufacturing plants.

Not long back the writer was in a meeting of peanut manufacturers. These men, staunch Democrats from birth, were planning a campaign to have peanuts protected from the importation of nuts from the Orient where labor can be employed for only a few cents a day. They saw ruin staring the peanut business, both the production and the manufacture in the face unless something was done. The cotton mill oil men know something of the results of the importation of the cheaply produced oils from China and Japan, particularly the former.

At this time the oil producers of the Mid-Continent field are clamoring for a tariff on Mexican oil, declaring that ruin is ahead of the entire oil production in this section if the cheap oil from the republic across the Rio Grande is not stopped. They point out that oil in Mexico is produced with cheap labor and that the wells are so much larger than any wells in this country that it is impossible for American producers to make a profit and sell in competition with those working in Mexico. They also point out that the fields of this country should be developed, as a protection against shortage in case of war and also as a protection to the gasoline industry.

The American people seemingly are not in favor of free trade. The Democrats insist they want tariff for revenue only; Republicans want it for both revenue and protection. Rapidly some from each crowd is unadmittedly getting into the other camp. A tariff department should be inaugurated and put in the control of experts, with nothing but facts to guide them.

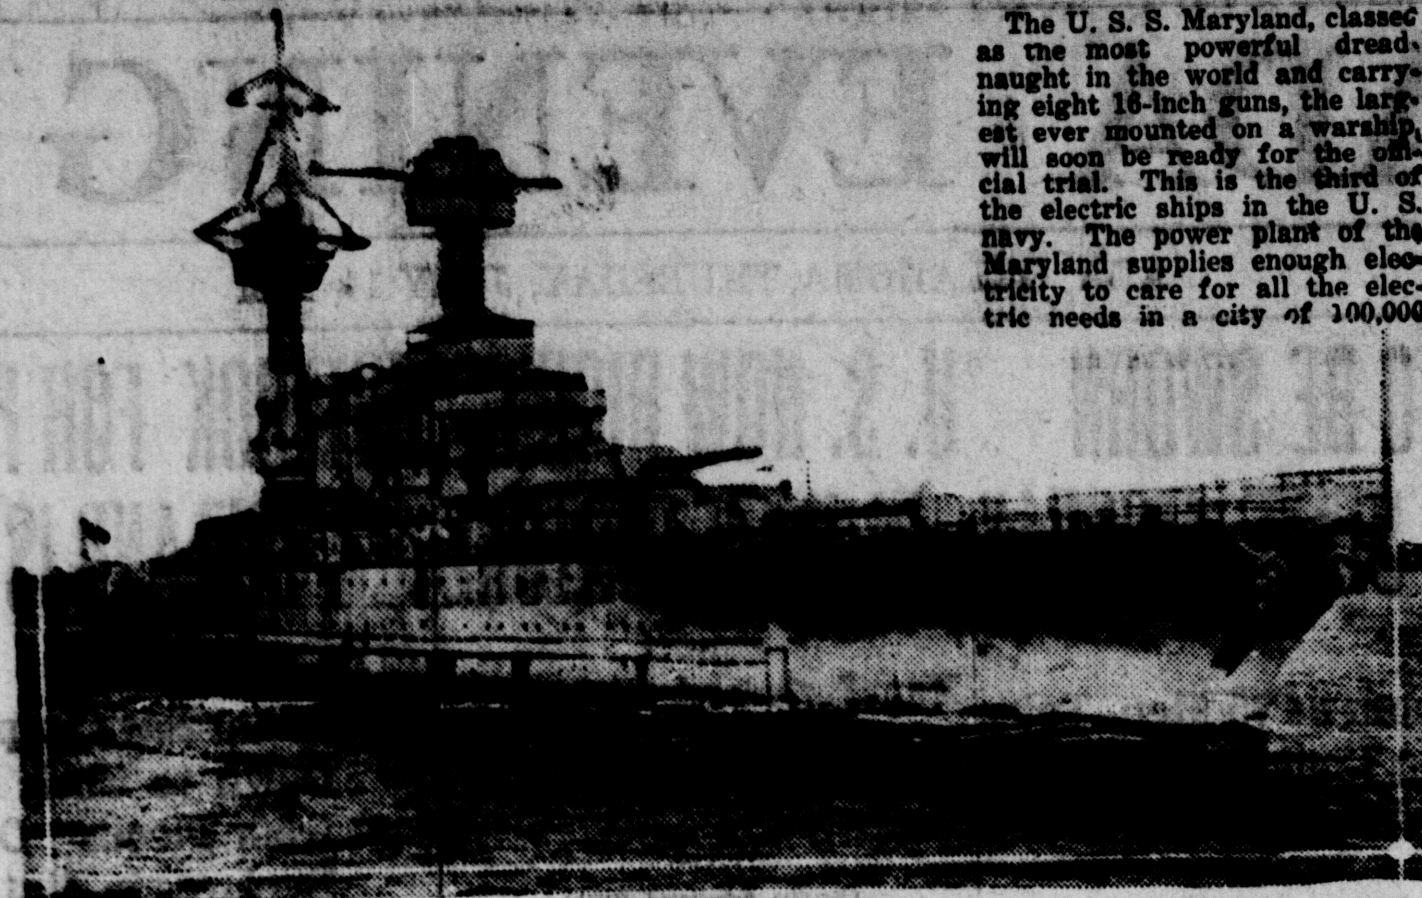

That the conference on disarmament will be held in Washington some time this fall seems assured. We suggest that Billie Bryan be given plenty of notice.

THE DISTINGUISHED MR. PRINGEY

Oklahoma has made herself notable in many ways through the notables who claim domicile within her borders or who have won fame through her favor. Millionaire ex-governors she has, outlaw, film and political heroes, besides a galaxy of congressional celebrities which cannot fail to delight the special writers of Washington. For instance, there is Congressman Jim McClintic, who insists upon quorum for morning prayers in the house, and who demands a roll-call when the chaplain's supplications have a less numerous earthly attendance than he thinks meet and proper. Then there is the congresslady from Oklahoma, who believes in silence and lots of it, even to the attenuation of the Congressional Record itself. There are others of note, but let us haste to the name of Pringey in the list. Representative Pringey "graduated with distinction from the college of hard knocks," as he puts it in his autobiographical note in the congressional directory. That announcement from the newly elected member won for him passing comment in the press, it is true, but the distinguished Mr. Pringey did not reach the pinnacle of distinction, notwithstanding that announcement of his, until he came out for a tariff on cotton.

Mr. Pringey wants a tariff on cotton—long staple cotton, short staple cotton, linters, bollies, any cotton, in short. "I am for a tariff on cotton, without regard to the length of the staple," declares Mr. Pringey with sonorous statesmanship, and then, turning to the meat in the coconut, he continues, "and I have no hesitancy in saying that I believe that it

U. S. S. MARYLAND, WORLD'S MOST POWERFUL DREADNAUGHT, READY FOR TRIAL TRIP; CARRIES EIGHT 16-INCH GUNS

The U. S. S. Maryland

The U. S. S. Maryland, classed as the most powerful dreadnaught in the world and carrying eight 16-inch guns, the largest ever mounted on a warship, will soon be ready for the official trial. This is the third of the electric ships in the U. S. navy. The power plant of the Maryland supplies enough electricity to care for all the electric needs in a city of 100,000.

would help keep Oklahoma in the republican column." Mr. Pringey told the Republican caucus, to which these sentiments were delivered, that he did not believe that a tariff was a tax, and averred that the economic value to the south of a tariff on cotton could not be calculated. He himself modestly refrained from calculating it. But he believes that the kind of voters who vote the Republican ticket in Oklahoma can be persuaded as easily as could Col. Mulberry Sellers that "there's millions in it."

Mr. Pringey missed a great opportunity of making Oklahoma even more Republican than it is. By suggesting a stiff tariff on gyp rock he might have won over southwestern Oklahoma to the fold of the faithful, from which that section has so consistently held aloof. True, this move might cost democratic Jim McClintic his seat, for he comes from a district which is rockribbed with gypsum instead of granite. But though Mr. McClintic's retirement might cause the special writers of Washington to mourn, it would relieve protection of a tireless foe, and besides with Jim gone, Republicans could stay away from public prayers without having their unpiety (if you permit the word) laid bare to their constituency by one of Jim's roll calls. As for the tariff on gyp, its merits are obvious. Of course there is but little of the stuff imported into the United States, but it is so cheap as to be a nuisance in Oklahoma, and the tariff on it would protect it from a non-existent foreign competition as completely as a similar tariff would protect cotton from a similar peril. Mr. Pringey has the idea, but he should broaden out. —Dallas News.

The Person of the Press

Comments given below do not of necessity reflect the opinion of the News. In fact, oftentimes the opinion expressed is directly opposite to that held by the News. The opinions are given, however, because this is a newspaper.

This Is Oklahoma

Hugo News: Many persons come to Oklahoma from older and more sedate states, settle here, make their things here, even prosper here but are eternally extolling the virtues of their native hearth. Not only extolling, but criticizing Oklahoma.

To such persons we always feel like saying, well, why don't you return from when you came, if you are so wedded to it?

Love of the home of childhood is worthy and commendable but the continual deriding of Oklahoma by those who have cast their lot here isn't just and it isn't even logical.

Luther Harrison, writing in his paper, the Holdenville Democrat, sets forth some of Oklahoma's achievements in its 13 years of statehood which would act as a Maxim silencer on this class. We reprint it for it is an unanswerable argument for Oklahoma:

"This state we call Oklahoma is now only thirteen years old—just the age at which the average girl enters high school and the average boy begins to wash behind his ears. Yet this thirteen-year-old commonwealth has made a record for which history hardly affords a parallel.

"Oklahoma ranks twentieth in population, although she is forty-sixth in age. She is more populous than any one of twenty-six states that are her elders.

"Oklahoma ranks tenth in revenue contributed to the support of the government. Thirty-six states have been in the Union longer than Oklahoma (some of them a century longer) yet none of them pays so much to keep the government going.

"Oklahoma ranks thirteenth in

health. Thirty-three states with the advantage of many years experience are doing less to conserve the lives and health of their people than Oklahoma is doing.

"Oklahoma ranks first in oil production, second in winter wheat production, fourth in cotton production. While nature bestowed her gifts on her with a lavish hand, it required the brains and energy of Oklahoma's citizenship to prevent the finished product to the world.

"Oklahoma ranked sixteenth in the number of troops mobilized during the war. Four states with a greater population failed to furnish the number of fighting men that Oklahoma sent to the front. States that had passed the century milestone contributed fewer men to fight for world preservation than did this young commonwealth that is only thirteen years old.

"Then what is the matter with Oklahoma? Has she not achieved a record that should thrill all her

sons and daughters? Has not Oklahoma made a better record in thirteen years than your native state, no matter what your native state may be?"

"Use It for Best" Is Only Note in Church Donation

Somewhere in Wilson, Oklahoma, is a man, believed to be an oil field worker, who is being heralded here as an "unknown saint."

In less than three months this unknown one has donated to the First Baptist church here \$45 and in it all he refuses to publish his name to the world.

Speculation as to the identity or the motive of the man, the second donation from whom was received yesterday by Rev. C. C. Morris, pastor of the First Baptist church, has been growing since he addressed a letter, containing \$50 in cash to the church with instructions to "use it as you see fit." The first letter was postmarked "Ada" and was sent at the time when the oil boom was starting here.

The letter yesterday, containing \$15 in currency and a note which merely said "use in church as you see fit," was postmarked "Wilson," and led church officials to believe that he is an oil field laborer.

The money was deposited in a local bank to the credit of the church and the deposit slip marked "by an unknown Saint."

"It is interesting to note, the different remarks from persons on the street when they learned of the mysterious donation to the church," Rev. Morris said. "The first man to learn of the strange gifts said 'it's conscience money.' I am surprised at the number of persons who are ready to question the motive of anyone making such a contribution," the pastor added.

Phone 4 is the place to get service in job work or advertising. Don't overlook your opportunities.

Student Works Day and Night to Land Cornell Position

NORMAN, July 14.—(Special)—Twenty-six hours by correspondence within five weeks is the record in the University of Oklahoma, and the goal in view was a bachelor's and a master's degree which made possible a teaching position on the Cornell University faculty for the "victim" who did the work, Olin G. Bell, an Elk City student.

In a way he was a victim because he "looked like a skeleton" as he worked every day from six in the morning to nine in the evening, but in another sense he was a medal winner for he accomplished the feat and now, as a member of the Cornell faculty, he holds a position coveted by many educated men.

Bell was enrolled in the 1920 summer session when he learned that this position was open to him in the geology department of Cornell by the first of the year 1921 if he held a bachelor's and master's degree. He took the 26 hours correspondence work between the summer session and fall semester, and then after a few days rest, enrolled as a regular residence student. By consistent labor he finished uncompleted work for both degrees by the close of the semester, and went to Cornell the first of the year.

He is doing some teaching in the geology department and at the same time doing advanced geology work. He has the same appointment for next year. Bell was a captain during the war.

"I tell you the News want ads certainly bring results." is a statement made every day to the advertising department. Are you getting your share of these results?

SENATE TO PROBE STRIKE TROUBLE IN MINGO FIELD

(By the Associated Press)
WASHINGTON, July 14.—A senate committee began today an investigation of the disorder in the Mingo coal field of West Virginia, which led to martial law.

Neil Burtenshaw, representing the United Mine Workers of America, the first witness, said the trouble was due to "a lockout" of union miners by the mine operators.

Miners had been evicted from company houses and "terrorized by gunmen," Burtenshaw asserted, eleven thousand miners and their families having been housed in tents by the union.

L. Taylor Vinson, for the operators, said that Burtenshaw's statements would be "overthrown by evidence."

HIGH SCHOOL TO GIVE MINSTREL NEXT TUESDAY

An opportunity for a pleasant evening will be afforded people of Ada by the minstrel next Tuesday night. The program will not be long, for it is a summer night affair. Characters will be played by students of Ada High school and an enjoyable evening is assured by those in charge.

The name of the entertainment is "The Sunflower Minstrel." The program is in three parts, each part offering an entirely new line of enjoyment. The performance will be preceded by a parade of the blackface comedians at 1 o'clock Tuesday afternoon.

NAME NECESSARY

The News often receives communications and new items without the sender's name. It is necessary to know who is responsible for an item before it is inserted. The management will appreciate it if its friends will remember this.

Commercial Printing with class is the kind you get at the Ada News Print Shop. Prices are as low as excellent work will justify.

Clothes advice by Dorothy

FROM the time that the cave man first presented his mate with a leopard skin with which to make other cavettes jealous, the art of keeping up appearances has been steadily progressing.

The art of keeping up appearances and a healthy bank account at the same time is being modernized by the faultless cleaning and dyeing of the modern establishment. Such a shop you will find here and such a lot of help we will be to you.

TEACHING MATH TO BE STUDIED

Instructors May Return to "Ciphering" Plan for Interest.

A call meeting of students and teachers of the Normal interested in the teaching of mathematics in a more helpful manner was held Monday afternoon with more than 50 present. An hour was spent in discussing plans for teaching this subject and it was pointed out that although arithmetic is one of the most practical subjects taught in schools, it is one of the most poorly taught, and, consequently, least understood.

It was also pointed out that parents are more interested in the subject than others because they realize its value to the student in life and its practical value to them at present. Many other important reasons were brought up why mathematics should be given more interest in teaching and enthusiasm in completing an organization is growing.

As a result of the meeting an organization was started, its main purpose being to promote interest in old time "ciphering" matches, to introduce county and district contests in the subject at literary meets, and to start the teaching of arithmetical fundamentals more thoroughly. An effort will be made to perfect plans whereby every student interested will be given an opportunity to take part in contests, giving all a chance to profit by better taught arithmetic.

Correspondence Offered.
In order to aid the teachers in the teaching of the subject, the Normal is offering correspondence courses in both subject matter and method. Extension courses in these subjects will also be given to groups of teachers throughout the district. County superintendents in this district are interested in the movement have committed themselves as being willing to lend all possible aid to its success.

A committee of one man from each county in the district was appointed to work in promoting interest in the plans outlined and to assist county superintendents in getting better courses in arithmetical subjects. Those appointed were James Hodges for Pontotoc county, A. B. Herring for Garvin, Gilbert for Johnston, J. H. Randall for Johnston, M. L. Emerson for Hughes, K. W. Harris for McClain, Mary Osburne for Coal, A. Prewett for Oklahoma, G. A. Dowell for Pottawatomie and J. O. Seger for Seminole county.

Ada Ball Team to Meet Chandler in Fast Game Sunday

Chandler comes Sunday for what promises to be the fastest and hardest fought baseball games of the season here. This team is an old rival of Ada's and have sent word that they are coming loaded for bear. Cal Sparks, manager of the Ada club, stated today that he was confident of winning but expected to have a hard go for the money. P. Wanner will hurl for Ada tomorrow and with Little Cover behind the plate, classy playing is promised. Every man on the team is in splendid condition for the game and the team has been showing up good in recent workouts. It is reported that Frisco Vernon will be moundman for the Chandler team.

WAGE REDUCTION IS DENIED IN CHICAGO

(By the Associated Press)
CHICAGO, July 14.—Judge Samuel L. Schuler, arbitrator in the stockyards wage hearing, today refused to grant a reduction of five cents an hour in the wages of the 75,000 stock yards workers as requested by the company. At the same time he ruled that overtime must be paid for all work over 48 hours.

PRINCIPALS IN THE BIG HEAVYWEIGHT BATTLE

By Norman E. Brown

Here is how Jack Dempsey and Georges Carpentier stack up. The past records in the ring of both fighters is taken for what the individual fan thinks it is worth. The advantages listed in each fighter's favor below are not dependent upon comparative statistics. They are assets recognized by the men who have studied both fighters separately recently and in the past. Dempsey is the harder hitter. He is the more rugged—can stand more punishment.

He has the fighting instinct and heart.

He has the advantage in height, weight and reach.

He has two psychological advantages. He is the champion (which the challenger realizes) and is fighting at home—before his fellow countrymen under American conditions.

Carpentier is faster. He is more cunning. He is brainier.

He has a better defense than Dempsey.

He has a peculiar style different from that of any other fighter in the game.

He has a strong counter psychological advantage. He is not under the nervous strain of the champ. He has nothing to lose. He will return to France a hero still if beaten. He goes into the bout free of strain mentally, as does any challenger.

SCHOOLS TO HOLD MEETING JULY 12

Advantage of Consolidated District Shown In Floyd's Letter

An annual letter in which he sets forth the necessity of full eight month terms of school, repairs of buildings, the sanitation and neatness of school district property and the advantage of the consolidated school as an agent for giving the rural community equal opportunity with the city school, went out this morning from the office of County Superintendent A. Floyd to 58 districts of Pontotoc County.

This letter will be read in connection with the discussion of other in every district in the county at their annual meetings, July 12. Meetings will start at 2 p. m. and continue until 4 p. m. The state superintendent's annual letter of instructions to rural schools, which is supposed to go out with the annual letter of the county superintendent, has not been received here. A copy of the county treasurer's annual report, however, will be mailed with the county superintendent's letter.

The order of business for school meetings of the county includes the call to order by the chairman, reading of the county and state superintendent's letters, reading the clerk's annual report, reading the county treasurer's report, discussion of reports, discussion of repairs, improvements, sanitation and necessary apparatus, determining opening and length of term, voting on levy in excess of five mills where an extra levy is needed, election of a member to serve three years, and miscellaneous business.

Following is part of the county superintendent's letter:

"The boards should meet with their teachers once a month at the school building. At this meeting you should discuss the progress of the school, things needed to be done for the betterment of the school, etc. Also in addition to this meeting there should be a 'Teacher-Patron Club' meeting. These meetings have a wholesome effect on the school in arousing a better school spirit and community interest."

"Ours is a life of service. We should have enough civic pride and willingness of service about us, to make our school house and premises just as neat and sanitary as they can be made. This is the home of our children during the day for a greater part of the year. Many diseases common to children are spread by our schools. Many immoral sentiments are impressed upon the minds of our children by

the lack of care of our toilets. Are we going to continue this gross and inexcusable neglect longer? These things can be remedied and I insist they must be, to preserve health and morals of our children."

"Though we have much to hinder, yet, I feel that our schools are making some substantial progress each year. I know that some real construction work is being done. High school advantages are fast coming in reach of every boy and girl in the county. We have five fully accredited high schools and several others doing high school work."

"In my opinion the consolidated school is the only successful way to give all the rural communities the opportunities for equal education with town and city schools. These schools are practical, sensible and successful where the roads can be made and valuation sufficient. We have two in this county, namely Latta and Vannos. We urge you to study these schools with an unbiased mind, and when you do so, I am sure you will feel as I do that that is the only solution or salvation for good schools for our country boys and girls."

FILIPINOS CONVICTED ON KILLING AMERICANS

(By the Associated Press)
MANILA, P. I., July 1.—Seventy members of the Philippine constabulary were convicted today of murder for the killing of three American members of the Manila police force

and eight other persons during a riot between the constabulary and the police last December 15.

RAINBOW VETERANS TO DISCUSS BONUS TODAY

(By the Associated Press)
CLEVELAND, July 14.—The bonus for war veterans will be one of the principal subjects discussed during the second annual convention of the Rainbow Division veterans association, organized from units from 26 states, whose four day session here began today.

Two Batteries in Annual Camp This Week at Ft. Sill

(By the Associated Press)
FORT SILL, July 14.—Batteries "A" of the First and Second Field Artillery, Oklahoma National Guard, the heavy units of the two regiments operated a 15-day training encampment here Monday. This is the first of three artillery encampments to be held by the guard, the remaining two periods to follow consecutively the closing of the former.

Battery "A" of the First artillery, commanded by Capt. William A. Graves, is located at Enid. Battery "A" of the Second artillery, is commanded by Capt. William S. Key and is located at Wewoka. Special trains brought the two units, numbering approximately 200 men.

Lodge and Verman Are Now Oldest in Years With Senate

(By the Associated Press)
WASHINGTON, July 14.—(Capital News Service)—Senators Henry Cabot Lodge of Massachusetts and Lee S. Overman of North Carolina hold the long service records for continuous membership in the United States Senate, as shown by the Congressional Record. They have each served 28 years. Senator Francis E. Warren of Wyoming, father-in-law of General Pershing, has served in all 29 years but not continuously, and Senator Knute Nelson of Minnesota 26 years. Others holding long service records are Senators Penrose, Pennsylvania, who is just beginning his sixth consecutive term; Simmons, North Carolina, Culberson, Texas; McCumber, North Dakota and Dillingham, New Hampshire all of whom have served more than 20 years. Senator Smoot of Utah, has served 18 years and Senator Brandegee of Connecticut, 16.

Francis Bearcats no Match for Ada in Mix Wednesday

The Francis Bearcats made little showing against the Ada Ball Club in the game played here yesterday afternoon. It was an easy victory for the Ada players who hit the ball almost at will and ran in a total of 13 scores. Francis boys could not connect with the crooked balls thrown by Williams and failed to score.

This game was not on the regular schedule and played mostly for practice for both teams. The Francis Bearcats were not in the class of the Ada players, but have a good team it is said. Ada players were given an opportunity to get a good workout for the game with Chandler Sunday.

Seniors at O. U. Meet
NORMAN, Okla., July 14.—(Special)—The fifty-six seniors of the 1921 summer session, University of Oklahoma, held a class meeting Thursday afternoon, July 7, for the purpose of deciding upon matters in connection with graduation, selecting announcements, and ordering academic costume.

The class this year will comprise 56 members, 75 percent of whom, it is estimated, have done part work by correspondence.

Special Attention

Is paid to the cleaning and pressing of Ladies' Summer Wear. Bring your silks and satins to us for a good cleaning.

GOES FARTHER
DEEP-ROCK
LASTS LONGER
GASOLINE — KEROSENE — OILS and GREASES

From Our Own Wells
to the Consumer

SHAFFER Oil and Refining Company not only produces the rich crude oils from its own wells but also refines them in its own refinery. Hence we are able carefully to oversee and rigidly inspect DEEP-ROCK products at every step. This is why DEEP-ROCK gasoline, kerosene, oils and greases have such an unrivaled reputation.

To assure you of getting these high quality petroleum products—full strength and unadulterated—we have established for your protection and convenience 173 distributing stations, including those of the Home Oil Company, allied.

In addition to our large complete refinery, we own and operate 461 oil wells, 200 miles of pipe lines, 633 tank cars and a fleet of tank trucks—a complete chain at your service.

Stop at nearest DEEP-ROCK Garage or Station and obtain the advantages and economy found in DEEP-ROCK—the petroleum products with a pedigree.
